

The Project

To turn Brampton Way Park, Portishead, into an inviting space that can be used and appreciated by the whole community.

Partners involved in this project include

- Gordano School, Portishead
- St Peters School Portishead
- NSC Play Development team
- NSC Parks and Open Spaces
- Portishead in Bloom
- NS Housing
- Police
- NSC Portishead Youth Group
- Residents
- Tom Hine (Artist)
- Portishead Town Council
- Brampton Way Playgroup

Brampton way Community Park is underused and in need of development to enhance the open space. We are currently working with some local residents and the wider community to improve the open space so that it can be appreciated and respected by all.

After consultation we have installed a fence line providing a safer place to play whilst also accommodating dog walkers. We have worked with Gordano School to run a wall art project which has transformed the existing run down wall into one that the whole community can appreciate.

Portishead in Bloom have also been busy and have started off the transformation process by installing shrubs that will develop over time to blend in with the art work.

This is the start of a longer term development and we will be working closely with the community to encourage them to seek funding opportunities to improve the park further.
